Web Developer's Resume:

NIKITA SHAKHRAI

CAREER OBJECTIVE

I love to program things that work in real world and which are useful for people in their business. I am professional, reliable and responsible for the work I do.

SKILLS, SUMMARY

- Web / Database programmer / analyst with diverse experience in complex software solutions
  - web programming;
  - database design;
  - 2-tiers client / server systems on client and server sides both;
  - host / terminal systems for the UNIX OS using C language;
  - file / server database applications
- Remote work, work in a team, writing components, work with other programmers source-code, migrating from file/server to client/server architecture; programming for MS Office, diverse kinds of import / export data, building parser, grabbers, other custom tools and scripts;
- *Operating Systems:* Windows; Unix; DOS; Novell NetWare
- *Web Technologies / Frameworks / Libraries:* ColdFusion, PHP, Flex, Bootstrap, jQuery
- *Programming Languages/Technologies:* PHP, CFML, Flex, CFC, CFScript, Flash Remoting, HTML, XML, CSS, WML, ActionScript, JavaScript, Java (JDBC, Swing), C, X-Base family (DBase, FoxPro), VB, VBA
- *Development Tools:* IntelliJ IDEA, Macromedia HomeSite, Adobe Flex Builder, Oracle Pro*C/C++; Informix ESQL/C; PowerBuilder; FoxPro 2.X / MS Visual FoxPro; Borland JBuilder; MS Visual Basic; MS Visual C++ (basics); MS Office VBA
- *RDBMS:* MS SQL, MySQL, Oracle, Informix; Tools: Transact-SQL, PL/SQL, SPL/SQL
- *Payment Processing and other APIs:* BrainTree.com, Walmart.com, Amazon.com, ApplePay, Authorize.net, Paypal, Paynova.com (Sweden), ePay.dk (Denmark), Virtual Card Services (South Africa) payment gateways integration, Google Maps, Google Shopping, Google Microdata Markup, UPS.com, FedEx.com;
- PC assemble, configure, install peripherals, conflict resolution
- Network mounting, administration and troubleshooting
- BrainBench certified ColdFusion 5 developer, Java2 programmer, Windows 95 administrator - all expired currently :(

EXPERIENCE

September 2004 - Present

Contract web developer, database programmer, application architect
(freelance web development)

Technologies in use:
ColdFusion Web Application Server 5/MX6.1/MX7/Scorpio/9/10/11/2016/2018, CFC, CFScript, JavaScript/jQuery, HTML 5, CSS, PHP 4/5/6/7, XML, SOAP web services, MS SQL Server

2000/2005/2008/2012/2014, MS Access, MySQL, MS Windows + IIS. IntelliJ IDEA as main code editor. Macromedia HomeSite, Adobe Flex Builder, Macromedia Dreamweaver, Flash, Adobe Fireworks. APIs: BrainTree.com, Walmart.com, Amazon.com, eBay.com, ApplePay, Authorize.net, Paypal, Paynova.com, ePay.dk, Virtual Card Services (South Africa), Google Maps, Google Shopping, Google Microdata Markup, UPS.com, FedEx.com.

March 2002 - September 2004

Enhanced Technologies Inc., Alexandria, VA,USA ⊠
(hosting, web programming and design)

Senior Programmer (Contract)

Was building ColdFusion applications and working out corporative coding standards. Worked on custom ETI's client's projects.

- Wrote new modular pieces and custom tags to use across numerous applications related to system installation, back-end configuration, security access, staff management, e-commerce abilities etc. Enhanced several systems with WAP interfaces.

Technologies used:
ColdFusion Web Application Server 4.5/5/MX, HTML, JavaScript, MS SQL Server 2000, Windows 2000 Server / XP + IIS. M3Gate, Klondike, Go.Web WAP emulators. HomeSite as code editor. Authorize.net API.

April 2001 - March 2002

AND Project Ltd., St.-Petersburg, Russia ⊠
(software design and development)

Programmer of the Internet / intranet technologies department

Worked as member of the "SiTex" project (advanced content management system including: creation company web-portal, enterprise inside and outside referral service, files and documents library management)

- Writing new and enhancing existing publication rules, utilities, custom tags and templates using ColdFusion 5, JavaScript and HTML.

Technologies used:
ColdFusion 5.0, HTML, JavaScript, MS SQL Server 2000, Oracle 8i, Access 2000, Windows 2000 Server + IIS 5.0, RedHat Linux + Apache Web Server

February 2000 - April 2001

SyEl Inform Project Joint-Stock Company, St.-Petersburg, Russia ⊠
(software design and development)

Programmer of the subscribers service and billing work group

Worked on "SyEl TeleSet" project (city phone station's software)

- Enhanced functionality of the legacy subscriber service host/terminal module operating with

Informix 7.3 and Oracle 8 databases using Informix ESQL/C in UnixWare OS, Oracle Pro*C/C++ in HP UX OS; ported this module from Informix to Oracle;
- Implementing server-side business-logic (stored procedures, functions and triggers) using PL / SQL and SPL / SQL;
- Writing components for the billing subsystem using PowerBuider 6.5, integrating it in working module;
- Customer's data conversion into the enterprise project database (Oracle);
- Writing documentation

Technologies used:
Oracle 8 (PL / SQL, Pro*C), Informix 7.3 (SPL / SQL, ESQL / C), PowerBuilder 6.5, HP UX, SCO UnixWare, Windows 95/98/NT

June 1999 - February 2000

Medexpress Joint-Stock Company, St.-Petersburg, Russia ⊠
(Insurance company)

Programmer / System Administrator

Worked as database programmer and system administrator

- Developed from ground up database software based on client/server technologies for insurance business using Oracle 8i server integrated with existing software
    - Developed business logic on server side (Oracle 8) using PL/SQL
    - Designed GUI using Java2 and Visual FoxPro 5.0
- Performed migrating from file / server to client / server architecture; import dbf-format data into the Oracle database
- Designed file / server database multi-user application ("Clients and contacts") using Visual FoxPro 5.0 and VBA (still in use)
- Programming for MS Excel in VBA
- Maintaining and troubleshooting existing software
- Performed as a system and LAN administrator

Technologies used:
Oracle 8, Java2 (JDBC, Swing), MS Visual FoxPro 5.0, VBA (MS Excel), Windows 98/NT

July 1998 - June 1999

Regional Department of State Tax Inspection, St.-Petersburg, Russia ⊠
State Tax Inspection

Programmer / LAN Administrator

Developed and maintained database applications. Supported departmental LAN (around 100 PCs):

- Designed and developed database software system according to the end-users requirements with using Visual FoxPro 5.0 and FoxPro 2.6 for DOS
- Performed procedural development of additional modules for the existing tax software
- Ensured trouble-free networking in Novell NetWare 4.11 environment
- Performed daily database backup

- Provided end user support

Technologies used:
FoxPro 2.6 for MS DOS, MS Visual FoxPro 5.0, Novell Netware 4.11, MS DOS 6.22, Windows 95

EDUCATION

1997 - 1998 **Academy of Management and Computer Training, St-Petersburg, Russia**

Majoring in Software Engineering (Diploma of Software Engineer)

1990 - 1995 **St. Petersburg State Agrarian University, Faculty of Economics, St-Petersburg, Russia**

Master's Degree in Economics (Russian Diploma of Economist - Organizer)

PERSONAL

- Professional
- Reliable
- Self-trained
- Creative
- Hardworking

RECOMMENDATIONS

Great recomendations from the clients from US, UK, Sweden, Denmark, South Africa can be provided upon the request.
